

COOK VETERINARY CLINIC PLLC

SURGERY CONSENT FORM

Owner Name: _____ Best # to reach you at: _____

Animal Name: _____ Species: Feline: _____ Canine: _____ Male/Female (circle one)

Date of last Rabies Vaccination: _____

I am the owner or agent for the above described animal and have the authority to execute the consent.

I hereby consent and authorize the performance of the following procedure(s): _____
under general anesthesia.

I understand that during the performance of the foregoing procedures there are inherent risks and unforeseen conditions may be revealed. If necessary, an extension of the foregoing procedures may be performed. Therefore, I hereby consent to and authorize the performance of such procedures a deemed necessary and desirable by the veterinarian's professional judgment. I also authorize the use of appropriate anesthetics and other medication, and I understand that hospital support personnel will deemed necessary by the veterinarian. Although this facility attempts to minimize risk involved during anesthesia, there is always risk in anesthetizing an animal. One way to lower risks involved with anesthesia is to have the "Pre-Anesthetic Blood Testing Option" (listed below) performed on the animal prior to surgery. **I realize that there are inherent risks involved and results cannot be guaranteed.**

Pre - Anesthetic Blood Testing Option ~ Additional \$35.00

For the added safety of your pet, we recommend a computerized pre-anesthetic blood profile screening. The information gathered from the screening allows us to more thoroughly evaluate the liver, kidneys, and blood sugar of your pet prior to surgery.

I approve for the blood work _____ (Initial)

I decline the blood work _____ (Initial)

Microchip Option ~ Additional \$40.00

Our HomeAgain microchip application and registration makes it easier to find your pet if they are lost.

I approve for the Microchip _____ (Initial)

I decline the Microchip _____ (Initial)
